## ArcLine Mini Outdoor 9/12/18 In/Out

The product generates colored light by means of high power LEDs. The product was designed for interior and exterior use and it is ideal for locations where signaling, directional or effect lighting is required.

### 1. Attention

**Consider the respective national norms during the installation!**

- Do not install the unit near naked flames.
- Avoid using the unit in locations subject to possible impacts.
- Do not attempt to dismantle or modify the unit.
- Do not install the module in badly ventilated location
- Avoid looking directly into the LED light beam at close range.

### 2. Installation

The ArcLine Mini Outdoor In/Out unit has to be connected to the power source of type of LVLE according to the specifications stated in the chapter "Technical specifications".

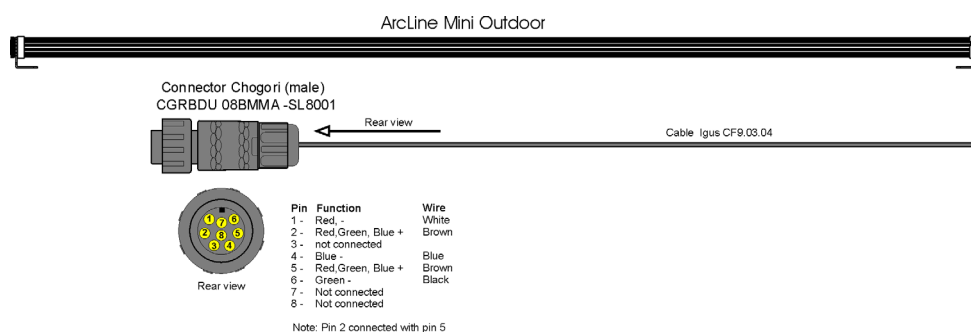

The ArcLine Mini Outdoor unit can be arranged in any position orientation.

For fastening the ArcLine Mini outdoor on the wall (flat surface etc) are intended two L-brackets with mounting holes of diameter of 5 mm each. Adjusting screws on both sides of the ArcLine Mini unit allow to set desired position of tilt.

**Note: the last LED module in the LED chain has to be the standard ArcLine Mini Outdoor module with one cable only (not In/Out version), otherwise LEDs in the chain will not lit.**

### 3. Connections

#### 1. ArcLine Mini Outdoor

2. Adapter cable Chogori -RJ45 (it is not a standard part of delivery), for indoor use only

3. Adapter cable Chogori -Chogori wired 1:1 (it is not a standard part of delivery)

4. Technical specifications

|                                 |  |
|---------------------------------|--|
| LED device:                     | Luxeon Rebel   |
| Number of LEDs:                 | 9/12/18  |
| Max input current (per colour): | 350 mA   |
| Maximum power consumption:      | 10.2W/13,1W/ 20.4W   |
| Max. input voltage:             | 48V  |
| Typical Lumen maintenance:      | 70%@ 60,000 hours  |
| LED life expectancy:            | minimum 60,000 hours   |
| Beam angle (RGB variant)        | 127°x119°  |
| Beam angle (WW or CW variant)   | 115°x113°  |
| Operating ambient temp.range:   | -20°C/+40°C  |
| Surface temperature:            | 40°C@25°C ambient  |
| Protection factor:              | Suitable for wet location<br>Note: With RJ-45 connector indoor/dry location use (not available for US/Canada). |
| Cooling system:                 | convection   |
| Construction:                   |  |
| Body                            | Extruded Anodized Aluminium  |
| transparent cover               | silicone   |
| Weight:                         | 0.19kg/0.26kg/0.38kg   |
| Cable:                          | Igus CF9.03.04, length=0.5m  |
| Connector In:                   | Chogori CGRBDU 08BMMA-SL8001(male)   |
| Connector Out:                  | Chogori CGRBDU 08BFFA-SL8001(female)   |

Dimensions (mm)

## **5. Accessories**

1x Chogori connector CGRBDU-08BFFA-SL8001 (female), IP 67

## **6. Optional Accessories**

Adapter cable CGRBDU-08BFFA/ CGRBDU-08BMMA, L=3m (P/N 13051960), IP 67

Adapter cable CGRBDU-08BFFA/RJ45, L=0.25m (P/N. 13051966), for indoor use only
