# FOR YOUR OWN SAFETY, PLEASE READ THIS USER MANUAL CAREFULLY BEFORE POWERING OR INSTALLING YOUR CALUMMA CLASSIC S! Save it for future reference.

This device has left our premises in absolutely perfect condition. In order to maintain this condition and to ensure safe operation, it is absolutely necessary for the user to follow the safety instructions and warnings written in this manual.

The manufacturer will not accept liability for any resulting damages caused by the non-observance of this manual or any unauthorized modification to the device.

Unauthorized modification will void warranty.

This device is for professional use only. It is not for household use.

# 1. Safety instructions

Consider respective national norms during fixture installation.

Always disconnect the fixture from power before cleaning, servicing or installing.

Do not install the unit near an open flame.

Make sure the power cable is not damaged by sharp edges.

LED light emission. Risk of eye injury. Do not look into the beam from a short distance without suitable protective eyewear. Do not look at LEDs with magnifiers or similar optical instruments that may concentrate the light output.

The fixture was designed for outdoor use. This fixture must not be used for underwater installation.

When choosing the installation spot, please make sure that the fixture is not exposed to extreme heat or dust.

Avoid using the unit in locations subject to possible impacts.

The fixture body never must be covered with cloth or other materials when the fixture is under operation.

Only operate the fixture after having checked that the housing is firmly closed and all screws are tightly fastened.

The fixture becomes hot during operation. Allow the fixture to cool approximately 30 minutes prior to servicing, cleaning or maintenance.

Immunity of the equipment is designed for electromagnetic environments E1, E2, E3 according to the standard EN55103-2 ed.2 Electromagnetic compatibility. Product family standard for audio, video, audiovisual and entertainment lighting control apparatus for professional use. Part 2: Immunity.

The product (covers and cables) must not be exposed to a high frequency electromagnetic field higher than 3V/m.

#### Calumma Classic S

The installation company should check levels of possible interferences above the tested levels E1,E2,E3 given by this standard (e.g. transmitters in surrounding area) before installing the equipment.

Emission of the equipment complies with the standard EN55032 Electromagnetic compatibility of multimedia equipment – Emission Requirements according to class B.

Please consider that unauthorized modifications on the fixture are forbidden due to safety reasons!

Please use the original packaging if the fixture is to be transported.

Refer servicing to qualified service personnel.

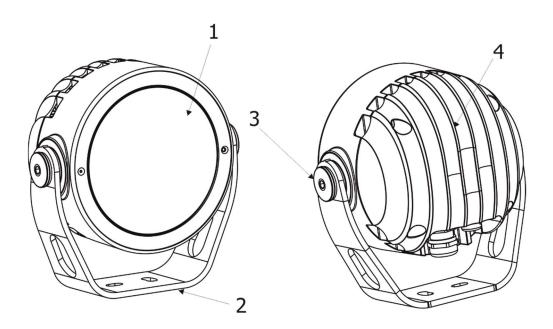

Warning for fixture with Harsh Environment Finish (HEF):

Handle with care!

Avoid any damage to the painted surface.

Damaging the paint may result in corrosion and loss of warranty.

#### 3. Installation

#### 3.1 Mounting the fixture

The Calumma Classic S can be fastened in any orientation on a flat, non-flammable surface by means of mounting yoke (2).

The LED module (4) can be tilted +180°/-180°. Use an Allen key 2.5 for adjusting a LED module position.

Ensure that the structure to which you are attaching the fixture is secure.

A structure intended for installation of the fixture(s) must safely hold at least 5 times the weight of the fixture(s) fastened on it.

#### 2.2 Connection to driver

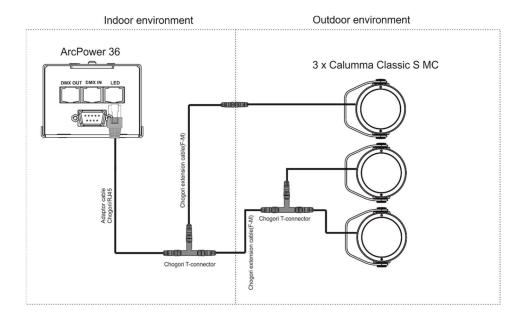

The fixture must be installed by a qualified electrician in accordance with all national and local electrical and construction codes and regulations.

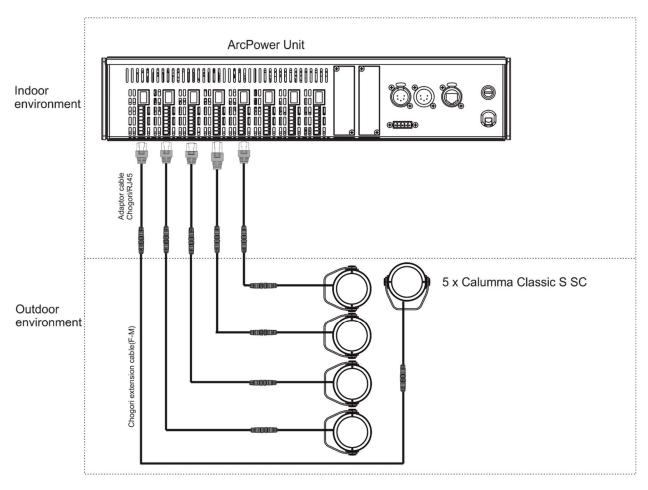

Do not connect (disconnect) Calummas Classic S to the driver when the driver is under voltage!

The Calumma Classic S should be connected to the ArcPower drivers (ArcPower 36/72/144, ArcPower Unit). Note. Drivers ArcPower 36/72/144 offer LED current 350mA only, for LED current 500mA and 700mA serves the ArcPower Unit.

Needed cables and connectors are stated in the chapter "Technical specifications".

#### **Examples of connection**

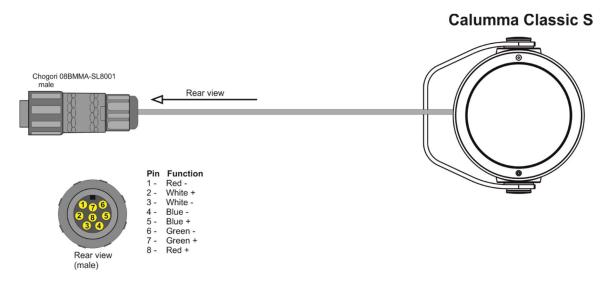

Fixture's Chogori connector is water protected according to IP 67 by mating with related Chogori connector. It cannot stay disconnected outdoor without covering the waterproof cap (optional item).

Max. number of connected fixtures to one LED output of the ArcPower driver:

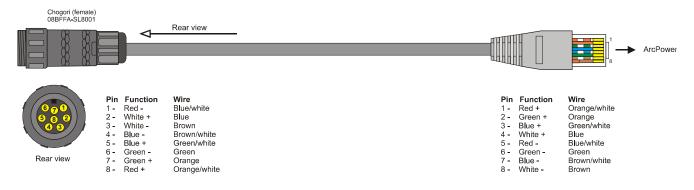

Type of Calumma	ArcPower 36/ArcPower 72/ArcPower 144	ArcPower Unit
Calumma Classic S SC	1	1
Calumma Classic S MC	3	4
