

QR code for Installations Instructions

The unit must be installed by a qualified electrician in accordance with all national and local electrical and construction codes and regulations. This device falls under class one and must be grounded!

Eminere Wireless with standard mounting brackets.

Brackets spacing.

### STEP 1.A MOUNTING AND TILTING - STANDARD BRACKETS

1

The Eminere Wireless can be arranged in any orientation on a flat, non-flammable surface by means of two mounting brackets. Two mounting holes can be drilled into the mounting surface according to brackets spacing and size of fasteners, prior to mounting of the fixture.

2

Release locking screw M6x8 on each side. Set the fixture position and tighten it by screws via brackets holes to pre-drilled holes on the surface. Angle fixture to desired position and tighten locking screw on each side.

### STEP 1.B INSTALLATION OF WALL MOUNT BRACKETS

Eminere Wireless with Wall Mount Brackets.

1

Unscrew four M5x12 from original mounting brackets and remove the brackets.

2

Fasten L-shape brackets into screw holes of original mounting brackets on both sides with four M5x12 screws.

3

4X M5x12

Fasten together original Mounting Brackets and Wall Mount extension parts with four M5x12 screws (as illustrated).

4

4X M5x12

Fasten together the Wall Mount Brackets and L-shape brackets on the fixture with four M5x12 screws.

5

Fixture can be mounted in any orientation on a flat, non-flammable surface. Luminaire can be tilted for easier access to mounting holes (see next step).

6

2X M6x8

Fixture with Wall Mount brackets can be tilted by +105°/-105°. Loosen M6x8 locking screws on both sides, adjust fixture to desired angle (mount fixture to the surface, if it's not done yet) and tighten locking screws on both sides.

### STEP 1.C INSTALLATION WITH WALL-MOUNT BRACKETS

1

4X M5x12

Unscrew the two screws on each side and remove standard mounting brackets.

2

Two times screw the C-clamp and base (C-clamps) with the screw and self-locking nut.

Screw the C-clamp Adaptors on each side with two screws.

Place the fixture on the tubular structure and tighten the wing nuts on the C-clamp adaptors on each side.

STEP 2  
POWER CABLE - GLAND INSTALLATION AND CONNECTION

Strip these lengths for wire connections

	A	B
Power Connection	7 mm	20

Wiring connection

EU color code shown

1. Slide the Sealing Nut (1) on the cable as is shown in the picture.
2. Slide the seal (2) on the cable. Always use the seal appropriate to your type of cable. There are only two possible types with 10,5 mm and 15 mm diameter.
3. Slide the clamp ring (3) as is shown in the picture. The seal (2) must be pushed into clamp ring (3) slightly.
4. Then, slide the O-ring (4) at the cable.
5. Strip about 9 mm of isolation from the end of the wires. Then connect the power wires into terminal block (5), as is shown at wiring connection picture.
6. Put the O-ring (4) on the O-ring edge made on the connector (5), as is shown.
7. Screw the clamp (3) ring on the connector (2), then screw sealing nut (1) on the clamp ring (3).

Failure to properly install power connector gland will result in failure of the water tight seal

Connection – colour coding

	Power Connection - Power IN		
	L	N	GROUND
Core (EU)	Brown	Blue	Green/Yellow
Core (US)	Black	White	Green

CONNECTION OF CABLE AND PANEL CONNECTORS

Same installation for Power cable and Waterproof cap.

LOCK

Cable connector mated to panel connector.

Align the arrow symbols on both connectors and push cable connector straight into the panel connector. DO NOT TWIST THE BAYONET LOCK.

### UNLOCK

1

2

Rotate the bayonet lock counter-clockwise by 30° (same as the arrow direction). Do not rotate clockwise during unmating process!

Drop out.

### STEP 3 CONNECTION - WIRELESS VERSION

A

B

### STEP 4

#### INSTALLATION OF ACCESSORIES - CABLE COVER AND SHIELD

CABLE COVER

SHIELD

Install two sliders on the accessory via two prepared holes and two M4x8 screws. Do not tighten them completely yet.

Slide the accessory into the groove on fixture's side. Center it and tighten the screws completely.

### STEP 4

#### INSTALLATION OF ACCESSORIES - OPTICAL DEMO SET1

Optical Foil can be inserted into the frame from the side after installation.

Loosen screws on both sides of the Optical Demo Set Frame and slide the Frame on top of the luminaire.

Tighten mounting screws on each side after frame installation. Do not over tighten screws.
